Secretary Permits Diseased Meats to be Sold "If the Rotten Parts are Cut Out"

Chicago, July 10.—Secretary Wilson is pending the decision upon the effect of locally infected tuberculosis meat, he will permit such meat to pass to the market, as government pathologists agree the infected parts may be removed, and the remainder eaten without harm. He says he hasn't decided finally upon passing diseased meat, but pending further investigation a doubtful practice will continue.

Cleveland, O., July 10.—It was discovered today the Standard had probably eluded an indictment on at least one point. It will probably remove from Cleveland the jurisdiction over storage and rebating, and place it in Chicago.

COURT MARTIAL ACQUITS

Rojestvensky is Free but Four Other Officers Condemned to be Shot

Kronstadt, Prussia, July 10.—Admiral Rojestvensky was acquitted after the court-martial trying him for surrendering to Togo had deliberated 10 hours. Four officers of the torpedo boat Bedovi, placed on trial with the admiral, were found guilty of premeditatedly surrendering the Bedovi, and all were condemned to death by shooting. On account of extenuating circumstances, the Czar was asked to commute their sentences to dismissal, and that they be deprived of certain rights usually pertaining to ex-officers. The dispatches say the mutiny at Tanbow is not yet quelled. The loyal and mutinous troops now face each other, prepared for battle.

Constable Clark of Bisbee Arizona Charged With Complicity in the Job

Bisbee, Ariz., July 10.—H. K. Clancy, superintendent of the Orlo Maximo mine at Cananea, Mexico, has been arrested, charged with complicity in smuggling rifles across the border for Mexican employes. He was released on his denial of the charges. Secret service men of the Mexican government at Naco, made inquiry as to smuggling, with the result that Constable Clark, of this county, is wanted. American citizens at Cananea are incensed and say they will lynch Clark if he is found. He left the country Sunday. Smuggling, it is said, is the outgrowth of Wall Street plans to injure Greene.

STOCKTON MURDER CASE

(Four O'clock Edition.)
Stockton, Cal., July 10.—Charles F. Murphy and William H. Smith were this morning cited to appear before Judge Nutter to show cause why they should not be punished for contempt of court in interfering with the prosecution and trial of Madame LeDoux. Both men this morning swore they conversed with Juror Ritter. Murphy said he met Ritter, and asked: "How about the woman?" Ritter replied, with an oath, that they intended to hang her. Smith testified that before the trial Ritter said to him: "I believe the woman is guilty, and she ought to have her neck broken." The prosecution announced that Ritter is out of the state, and argument was continued to August 3d.

Will Not Resign.

Judge Eakin Says He Needs the Money, and Will Not Let Go.

Democratic office seekers in Union and Wallowa counties, who have been baring hopes on the resignation of Judge Robert Eakin, of La Grande, from the circuit bench of the district comprising those two counties, leaving the appointment of a successor to be made by Governor Chamberlain have evidently been hugging a vain delusion. Judge Eakin said today he had no intention of resigning.

It has been rumored that Judge Eakin, who was elected judge of the supreme court at the June election, and who will take his seat the second week in next January, would soon give up his present position, in order that he might get well established in Salem before he begins his work in the supreme court, and that it was probable that he would move his family here before the opening of the schools this fall.

Judge Eakin came to Salem this morning, and he was asked the question: "Are you going to resign?" "No," replied the Union county jurist, "I need the money."

Judge Eakin's salary is \$3000 a year, and he would lose \$1500 by throwing up the job now.

DEWEY'S VOYAGE FINISHED

Arrived in Manila This Morning--Wilson Again Visits Chicago Packing Houses

Washington, July 10.—Admiral Train, commander of the vessels in Philippine waters, wasted no cable tolls in announcing the arrival of the dock Dewey. The dispatch reads: "Dewey arrived." Secretary Wilson went to the yards early today to continue the inspection begun yesterday. He found the packers correcting sanitary arrangements according to his suggestions. He says so long as the packers make strenuous progress toward bringing the plants to the government standard, there will be no quarrel.

Wilson spent most of the day in conference with inspectors from other cities. The new law was interpreted by experts for the inspectors, and Wilson gave them advice concerning its enforcement. Much must be left to the discretion of inspectors, as to the passing or rejection of infected carcasses.

GETTING A TRIFLE TIRESOME

New York, July 10.—Thaw, after a comfortable night, arose apparently cheerful this morning, and read his mail with an attorney, seeking a clue that might be of value to his defense. His mail was heavy. Various rumors as to past relations of White, Newbl, and Thaw are in circulation, but none are confirmed by the district attorney, whose office is examining every bit of gossip, but is saying little. It is reported evidence has been found showing Thaw inherited a tendency toward weak mentality.

Oleott went to Philadelphia today to obtain information concerning Miss Harriet Thaw, cousin of Harry, who has been confined for the last two years in the Friends asylum for the insane. He may call officers of the Friends' asylum in Thaw's behalf. Oleott, it is expected, will visit many places in search of witnesses.

Deputy District Attorney Garvin is diligent in the search for witnesses who are said to have heard Thaw threaten many times to kill White. The prosecution's theory is that Thaw's only motive was hatred. Attorney McManus, of Thaw's counsel, reiterates the statement that Evelyn make no affidavit, and declares if one is procured he can prove it is a forgery.

Count Witte Improved by Rest.

Vichy, France, July 10.—Count Witte who has been resting here for some time away from the turmoil of Russian politics was sufficiently recovered today to leave for Aix-les-Bains where he will spend another month. Afterward he will go to Italy or Switzerland preparatory to returning to Russia in the fall to take up the work of state. He is credited with holding the view that the representative branch of Duma is doing its utmost to become a revolutionary body, delaying reforms and maintaining chaos. That the Jews, by placing themselves at the head of the revolutionary movement make it impossible for their friends to assist them; that all Russians must consider the necessity of preventing inconsiderate action by revolutionists.
